2026 PCM Premier Formulary List

PCM Premier Formulary drug list is shown below. The formulary is the list of drugs included in your prescription plan. Inclusion does not guarantee coverage. The following list is not a complete list of products that are on the formulary. This printed formulary does not provide information regarding the specific coverage and limitations an individual member may have. Many members have specific benefit inclusions, exclusions, copays, or a lack of coverage, which are not reflected in the formulary. For example, drugs for the treatment of infertility or weight loss may not be covered. Refer to your benefit summary for more information regarding your specific coverage.

PLEASE NOTE: Brand-name drugs may move to non-preferred status if a generic version becomes available during the year. Not all the drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your prescription plan. For specific questions about your coverage, please call the phone number printed on your ID card.

KEY

[PA] – Prior Authorization Requirement

[ST] – Step Therapy Requirement

[SP] – Drug is listed on a Specialty Tier

Brand-name drugs are listed in CAPITAL letters. Example: ABILIFY MAINTENA.

Generic drugs are listed in lower-case letters. Example: ibuprofen.

For the member: FDA-approved generic medications meet strict standards and contain the same active ingredients as their corresponding brand-name medications, although they may have a different appearance.

For the physician: Please prescribe preferred products and allow generic substitutions when medically appropriate.

Alternative Drug Tables

The Non-Preferred or Excluded medications shown below may be filled at a higher copay or co-insurance. If you fill a prescription for an excluded drug, you may pay the full retail price. Please note that product placement on this list is subject to change throughout the year based upon market dynamics, new indications for existing products, and new product launches. PCM Premier - The list below is NOT a complete list of all products considered excluded or non-preferred drugs; in most cases, multi-source brands are excluded from coverage with preference given to generic equivalents.

Take action to avoid paying full price. If you're currently using one of the non-preferred or excluded medications, you can ask your doctor to consider writing you a new prescription for a preferred alternative. Additional covered alternatives may be available. Costs for covered alternatives may vary. Not all the drugs listed are covered by all prescription plans; check your benefit materials for the specific drugs covered and the copayments for your plan. For specific questions about your coverage, please call the number on your member ID card.
